WHAT IS THE VIRTUAL SOUTHWEST PA STEM FEST?

One of the best ways to engage students in science, technology, engineering ,and math is through hands-on activities. This year the Virtual Southwest PA STEM Fest will do just that and much more!

The Southwest PA STEM Fest allows students, schools, and families to experience STEM programs, careers in their local communities. This free online event offers students dynamic opportunities to engage in unique, local learning experiences. Industry and educational representatives open up a world of exciting STEM career possibilities. Join us for the Virtual Southwest PA STEM Fest through our website **www.thestemfest.com**. There you can see all our events for this year's virtual STEM Fest. Families and students from K-12 will find exciting STEM experiences that encourage exploration of STEM career pathways and support local industry growth.

What's happening this year?

$500 Scholarship

This year we are excited to announce that we are offering a scholarship opportunity for high school seniors.

We will be awarding one $500 scholarship. To participate in the STEM scholarship contest you must be a high school senior, participate in one of our at STEM activities, and live in PA, WV, or OH.

At Home Activities

We will be organizing a number of projects that families and students can complete at home and share with us online or through social distancing.
We are excited to be collaborating with a great group of educators and businesses to bring you these awesome STEM projects.

Career Highlights

We are currently working with our sponsors and partners to bring together a panel of experts and professionals working in STEM fields .

Watch our website and social media for more information. This would be a great way to get some inspiration for the essay contest!
